

CHAIRMAN'S REPORT 2016

EHSEES 18th Annual Convention-
Indianapolis
USA

CHAIRMAN'S REMARKS

Fellow Alumni, teachers, friends and well wishers

With sincere and best wishes, we again welcome you to the 18th Convention of the ES/EHS Alumni Association USA in this great city of Indianapolis. We want to sincerely thank our Regional VP Dr. H. M. Fahnbulleh, National Treasurer William Paasewe and the planning committee of the Midwestern Region and especially the Indiana chapter our host, for their work in organizing and staging the 2016 convention.

I am please to inform you that the association is in good shape. There is still much work to be done to fulfill our aspirations and grow to be where we have never been. You have just heard several reports from officers and committees on the performances on behalf and for the association. It is in deed manifest that we are worker hard but must accelerate our efforts in our **"Giving Back"** initiative for our former institutions.

"Rebuilding our Alma Mater-Who will lead the charge"

A powerful thematic goal that together we can make miracles happen, the charge is yours, mine and everybody's and the results from this convention will tell us where we are going.

I will now share with you an informative photo display from our recent visit to Liberia and the institutions in Robertsport, Liberia. My hope is the story that I will attempt to tell will show you and guide you in making a decision to join in the endeavor to rebuild the elementary & high School and the Boys(St. John's) and girls(House of Bethany) campuses in Robertsport.

TEAM AT BRUSSELS AIRPORT IN THE AFRICAN CAGE

Feweh, Dave & Sam
