By: Rev. Fr. Richard B. Kpehe

OVERVIEW OF THE ACADEMIC ACTIVITIES FOR THE YEAR 2016/2017

We took over a school that needs lot of attentions for the provision of quality education.

But with God above and collective efforts we will make the change that we will love to see soon.

Episcopal Elementary School

For the Academic year 2017/ 2018, the Elementary School EES held the total enrollment of 215 students.

Teachers

The Episcopal Elementary School has 11 teachers with 5 sport staff. Of this number, there are teachers who need more training for better improvement.

The Kindergarten Division

At the Kindergarten level, especially the K-II, 32 students were promoted to the First Grade.

There was a thanksgiving program for the students, on June 25, 2018.

Graduation program for the Kindergarten

View of the Library of EES but empty

The following books are needed for the Library of the Episcopal Elementary School:

1. Elementary Mathematics
2. Elementary English
3. Social Studies
4. Readings Books/Literature

And some essential instructional materials.

The EES building need to be furnished with chairs for students and teacher's desk and chair.

Episcopal High School (EHS)

The Episcopal High School had a total enrollment of 112 students for the Academic year 2017/2018.

Of this number, 11 completed the 12th grade and were awarded diplomas from the school. None were successful in the WASS.

Teachers

For the teachers and their qualifications, I will send you an updated list. I want to recruit more qualified teachers for this Academic year.

Graduates

The library has some American books especially the Literature and some reference materials. The major books that are used in Liberian schools for WASS is the Aki Ola series from Ghana.

This is the school clinic, but it is not in a good condition. It needs to be renovated and furnished.

This Hall is a proposed cafeteria for students. It needs to be completed and furnish with chairs and desks.

Computer Lab built by Lone Star Cell Foundation but no computer in it.

Water cage on Campus built by LWS C.

Burnot Hall under renovation.
